

Deferral Request

Admitted students who are unable to enroll as planned can defer their first quarter of enrollment by logging-in to their online admission account and submitting a deferral request to the International Admissions Office. If a student applied with the assistance of a Seattle Colleges agent partner, the agent must log-in and submit the deferral request.

An application can be deferred to a future quarter one time without payment of another \$50 application fee. If the application is deferred again, the \$50 application fee must be paid with each subsequent deferral request. For more information about how to pay the \$50 application fee online, please consult our [dedicated handout](#).
